On December 22, 2022, the St. David Irrigation District ("SDID") submitted maps
and draft abstracts in accordance with the Case Management Order filed November 30,
2022. Objections have been received from both the United States and the San Carlos

1 Apache Tribe ("Tribe") regarding priority date, basis of right, and point of diversion. The
2 Tribe also objects to the identification of the owner of the water right, and water quantity.
3 The remaining parties appear to have no objections.

4 A mapping hearing was held on January 23, 2023, to present the SDID's mapping
5 database for the parties' review and discussion. The record does not reflect any
6 substantive objections to the mapping protocols as submitted by the SDID, but rather
7 nebulous concern over the competing boundary lines from the various imagery layers.

8 **Status Conference**

9 **IT IS ORDERED** a status conference will be held on **Friday, June 23, 2023, at**
10 **2:30 pm** at which time any specific questions regarding how the mapping database will
11 be utilized will be brought to the Court, along with suggestions from the parties on how
12 to resolve any concerns they have with the maps as proposed in the draft abstracts. The
13 Status Conference will be held using the Court Connect program. Instructions for Court
